CORONIS LABORATORY & PATHOLOGY HELPED THIS LAB INCREASE REVENUE 7% YEAR-OVER-YEAR

BACKGROUND

A lab client came to Coronis Laboratory and Pathology for support with its laboratory outreach program.

The lab team at this 1,000-bed system had trouble measuring performance and benchmarking, with minimal visibility into billing department metrics, and was looking to understand and improve billing performance, streamline lab processes, and provide better insights and financial data to support the growth of the program.
